## COMPANY Profile

Partner of choice for the forklift truck industry

# B&B

attachments

The foremost partner of choice by the Forklift Truck Industry for attachments, ancillary products and service provision

Established in 1980, B&B Attachments Ltd is the leading forklift truck attachment company in the UK and Ireland. B&B prides itself on supplying the most comprehensive range of attachments available from one provider. This includes attachments from KAUP, one of Europe's leading manufacturers of attachments for forklift trucks. B&B also provide solutions for ancillary systems, such as masts, cameras and weighing systems from Lift-tek and Motec. In addition to this B&B design and manufacture bespoke specialist attachments in-house for customers with unique requirements.

Applications support and specialist design solutions spearhead the pre-order operations. Parts, workshop repair and refurbishment facilities, together with the largest service operation of any attachment company in the UK, ensures a full support service for all customers at every stage of equipment selection and use.

These resources are built with the expertise, performance and insight of our employees.

## Our Product Range

As sole UK and Eire distributor since 1980 for three of Europe's leading manufacturers of materials handling equipment, B&B's core product ranges comprise of: B&B's BlockMaster Range, LayerMaster, PowerMount and KegMaster specialist palletless keg and cask handling equipment, Kaup's fork lift truck attachments and Elecar's extensive range of masts.

B&B also supply specialist, made-to-order attachments, ancillary components and equipment. This includes forks, bearings and rollers used in mast and carriage manufacture, cable and radio transmission camera systems. B&B also provide weighing devices for pallet trucks and forklift trucks, giving both visual and printed data.

- Double Pallet Handlers
- Sideshifts
- Bale Clamps
- Fork Positioners
- Keg Clamps
- Carpet Booms
- Carton Clamps
- Fork Clamps
- Rotators

Masts fully compatible with all fork lift trucks, with capacities from 1,000kgs to 50,000kgs.

Heavy Duty Camera Systems - all round visibility for fork lift truck operators.

### BlockMaster

The BlockMaster range offers a complete range of specialist clamps for the brick, block, flag and kerb markets.

### LayerMaster

A system for layer picking which allows the user to pick single or multiple layers of products, building up pallets quickly and safely. LayerMaster is also a cost effective way of splitting pallet loads in order to remove excess layers for storage or achieving acceptable pallet height for manual handling of the load.

### KegMaster

The specialist attachment for handling kegs and casks without pallets.

### PowerMount

A quick release system that allows truck drivers to safely change attachments in seconds.

### WeighMaster

Hydraulic and integrated weighing systems for forklift trucks.

## Our Services

As the UK's leading independent distributor of fork lift truck attachments and masts, our customers know that they can rely on a level of pre and post sales care and advice unequalled in the materials handling industry.

With the breadth and depth of expertise offered by B&B staff, The team are able to advise you on the most suitable equipment for your application.

### Spare Parts

An extensive parts holding and efficient Parts Department is the key to the success of any maintenance operation. At our Northumberland facility, B&B maintains the largest spares and parts inventory, constantly reviewed and replenished from the original equipment manufacturers in the UK, Denmark, USA, Italy and Germany. As new innovative attachments are added to the B&B range our stock has expanded to reflect the needs of the equipment users and maintenance operations. Stock parts can be delivered anywhere in the UK overnight ensuring minimum downtime for equipment.

### Field Service

Our team of qualified, experienced, factory-trained field service engineers have vans which are fully equipped and based strategically throughout the UK. B&B is here to help you ensure that your new equipment is installed and maintained and any equipment failure and associated costly downtime are kept to an absolute minimum.

Each van is a mobile workshop fully equipped with test equipment and hose making equipment to carry out most repairs on-site. Our engineers can carry out a range of diagnostic checks on specific types of attachments to ensure that your equipment is kept at peak performance.

### Workshop

B&B offers a complete refurbishment service - from minor repairs to total factory rebuilds of your existing fork lift truck attachments. Where on-site repairs are impractical, we offer purpose-built production and workshop facilities and skilled engineers for all major refurbishment, fabrication and product finishing.

From stripping down, inspection and repair, steam-cleaning and machining, through to re-spraying and delivery back to your premises 'as new', you can measure your reputation against our standards of engineering excellence.

### Refurbished Equipment

B&B Attachments is in a unique position to provide reconditioned clamps to meet customer requirements. Our knowledge in the field spans the complete range of attachments available, and allows us to offer a qualified guarantee on our reconditioned clamps.

B&B Attachments have extensive workshop facilities which allow our experienced fitters to meet the challenge of providing high quality reconditioned and refurbished clamps.

We ensure that our equipment source provide the right starting point and we then build in reliability by using original equipment manufactured parts wherever possible.

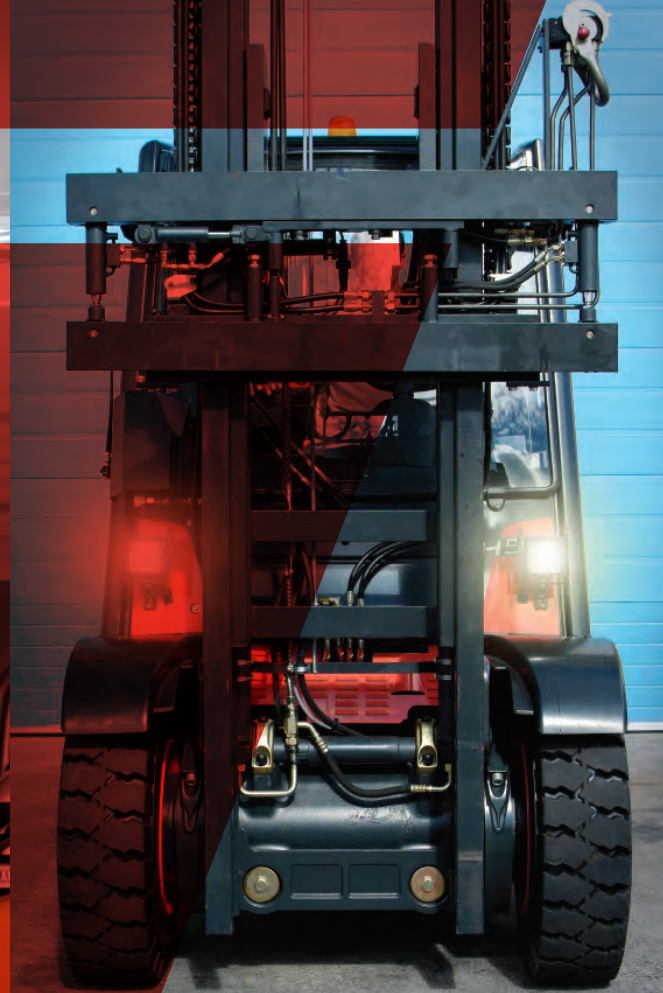

### Hire

If you require new fork lift truck attachments or if your own is damaged or in need of factory repair, B&B has an extensive range available for long and short-term hire.

The B&B hire division holds a large and comprehensive range of products, with dedicated sales and service teams, providing full technical back up and support to its hire fleet. All attachments are available on flexible long or short term hire agreements to suit the hirer's need, whether the requirement is a week, a month or a year.

B&B Service and support all hire attachments in the field using our network of service engineers.

## Your partner for business

Today, B&B's own manufactured attachments can be found throughout the world. Our new specialist machinery provides infinite possibilities as to the part sizes we can effectively process allowing us to manufacture bespoke specialised material handling solutions for all industry sectors.

This includes our popular Blockmaster range which offers a complete range of specialist clamps for the brick, block, flag and kerb markets.

B&B Attachments experience and understanding of the building products industry has been invaluable in the development of BlockMaster.

"The attachments from B&B Attachments have made a big difference to our on-site productivity. We are delighted with the speed and versatility of the attachments; they have significantly reduced labour time and increased our safe working practice on site."

 **Mark Barnes, Logistics Manager at Ardagh Groups  
Norwich site**

"We are delighted with the attachment provided and the dedicated service B&B Attachments has delivered to us. The attachment is used every day and is now an integral part of our operation, enabling fast and reliable loading, unloading and end of line support. The attachment has been chosen for its optimum performance, maximum productivity and reliable operation."

**Nick Berkovits, Senior Brewer at Timothy Taylors**

"The rotator attachment provided by B&B Attachments is an integral part of our operation and has made a big difference to our on-site productivity. The ease of use and reliable operation of the attachment, together with the service given by B&B, has been second to none."

**Ian Moir, Logistics Manager at Marshalls Falkirk**

“It has been a pleasure doing business with B&B. Since our first purchase of tine attachment in 2006, we have found B&B a very friendly and responsive company. The first unit was received promptly and it was beyond our expectations in both quality and durability. B&B Attachments have been flexible in fitting in with our requirements and are willing to accept any feedback to further improve designs. Whilst being responsive, B&B has also been supportive in both technical advice and customer service. I believe B&B will continue to grow as there are still many industries that require special and unique attachments for loading and unloading purposes.”

**Calvin Neo, Engineer at Histar Industrial Development (Malaysia)**

“We could not be happier with the LayerMaster attachment. A job that previously took two people a considerable length of time is now completed in a tenth of the time and by a reduced work force. More importantly, it has dramatically reduced the risk of injuries and accidents to our workforce.”

**Graham Toon, Site Service Manager at the Tradeteam National Distribution Centre in Burton-on-Trent**
