THE EFFECTIVE SOLUTION
for handling kegs and casks without pallets

 **KegMaster**

Partner of choice for the forklift truck industry

KegMaster

Features

- Excellent visibility
- Fast, reliable operation
- Secure gripping of kegs and casks
- Pallet handling without removal of centre tine
- Wear indicators on tines
- Low profile stabiliser pad fitted as standard
- Long lasting rubber pads on stabiliser
- Rubber inserts available on inner face of outer tines
- Narrow frame width for improved vision.
- Load stabiliser opening allows 4 layers of certain kegs to be handled

Benefits

- Safer operation
- Higher production rate
- Increased driver confidence
- Faster switching between jobs (*operator friendly*)
- Visible indication of tine wear
- Reduced damage to lorries and other overhead obstructions
- Reduced maintenance costs
- Less shock loadings to truck

KegMaster, in conjunction with the fork lift truck, is the ideal solution for handling kegs and casks without pallets. The KegMaster range has been designed and developed over the past twenty five years by Kaup in Germany working in partnership with B&B Attachments, the UK's leading supplier of fork lift truck attachments and masts and aftercare services. The B&B KegMaster with its excellent visibility, fast operation and durable construction is the latest model in the range and is now in use with the UK's major breweries and distribution centres.
