INNOVATIVE TECHNOLOGY FOR DRINKS PRODUCERS

A large industrial canning machine, likely a Codi Counter Pressure Canning System, is shown in a dark, industrial setting. The machine is made of stainless steel and features a control panel with a screen and several buttons. A conveyor belt is visible on the left side, leading into the machine. The machine is filled with cans, and a large cylindrical component is visible at the bottom. The word "CODI" is printed in red on a part of the machine.

CODI COUNTER PRESSURE CANNING SYSTEMS

COUNTER PRESSURE SOLUTIONS.

CODI DEPAL 250

- FULLY AUTOMATIC
- OFFLOADS **15000** CANS PER HOUR
- CUSTOMISATION AVAILABLE
- HANDLING OF ANY PALLET SIZE

TWIST RINSE LOWERATOR

TWIST RINSE

- STAINLESS STEEL TWIST RINSE CAGE WITH **FULL 360 TURN**
- AIR OR WATER RINSE INTEGRATED
- VARIABLE CAN SIZE COMPATIBILITY

LOWERATOR

- ACCOMMODATES ANY CAN SIZE WITH A SINGLE POINT ADJUSTMENT
- ENHANCED DATE CODING FOR CONSTANT SPEED AND PRINTING
- VARIABLE SPEEDS UP TO 250 CPM STANDARD
- ERGONOMIC DESIGN
- AIR OR WATER RINSE INTEGRATED

CODI CCL-45 COUNTER PRESSURE FILLER

With a filling capacity of up to 3,500 cans per hour, the CODI CCL-45 offers the flexibility to fill multiple can sizes of both carbonated and non-carbonated products.

The CCL-45, effectively controls foaming and guarantees consistent fill volumes even during tough product conditions and varying atmospheric conditions.

- Integrated CIP
- CO₂ can purge with adjustable time and pressure
- Compatible with nitrogen dosed beverages
- Mechanically driven seamer with integrated “bubble breaker”
- Variable can snift release controls foam out of fill heads
- Controlled liquid buffer tank with level sensor to ensure consistent flow

WHY CHOOSE CORE?

LATEST INNOVATION

At Core, we aim to supply quality products guaranteed to support your business through years of development and growth. We work in close partnership with some of the industry's most trusted manufacturers to select a wide range of innovative, high quality and cost-effective options.

OUR TEAM

We take a proactive and personal approach to every project, ensuring the equipment meets your specific needs and produces the best quality product.

Whether you are looking to buy a single piece of equipment or a full turnkey system; we pride ourselves on adaptability by customising orders to suit.

Whilst our sales representatives help to find the perfect solution for you, our wider team are here to take the stress out of purchasing, logistics and transportation.

SERVICE SUPPORT

As our in-house team look after the pre-installation activities and tasks; our service crew provide comprehensive installations, commissioning, and training services for all the equipment we supply. We also offer on-going field-based maintenance and repairs.
